

Trip recording made easy

- Easy and fast to use
- No need for pen and paper
- Automated calculation of costs per km/mile
- For business and private use

DriveLog by HansaWorld is an easy to use single user application for the daily recording and reporting of private and business trips. It's an application for anyone who needs to track kilometres or mileage for tax deduction or reimbursement.

Driver Friendly

DriveLog by HansaWorld is an easy and fast to use trip recording application. No need to carry pen and logbook with you anymore. Due to its simple interface you can capture trip information while on the move and update information later if needed. It supports both miles and kilometres, if you need to travel by car to different countries and record your trip.

Quick data entry

To speed up the data entry, you can set up multiple routes and select them on a specific trip log record. This will save time and helps to avoid typing errors. Standard application shortcuts help you to capture information easier and quicker. Add and remove any data entry fields you don't need.

Automatic calculation of costs

Application allows you to enter different reimbursement rates and calculates the cost per km/mile automatically.

Backup and export

DriveLog includes backup features. Backups can be stored on the phone, on your computer, or even remotely.
